How can I see who has permissions to a Google Shared Drive?

Tell Me

1. Login to gdocs.uncc.edu and browse to the Google Shared Drive folder you want to see permission levels for
2. Right-click on the folder and click View Members

   ![View members]

   If you have full access, click Manage Members

   ![Manage members]
3. The Google Shared Drive **Member Access** box will open

4. The individuals and Google Groups with access will be listed
   a. See [How do I manage who has access to my Google Shared Drive?](#) to change permissions
   b. See [What are the different permissions in Google Shared Drive?](#) to learn more about permissions

5. Click **Done** to close the **Member Access** box
