What is Gradescope?

Tell Me

- A tool that allows faculty to grade paper-based exams, quizzes, and homework
- It enables faculty to grade programming assignments (graded automatically or manually) and create online assignments that students can answer in Gradescope
- It works well for a wide variety of answer types: paragraphs, proofs, diagrams, fill-in-the-blanks, multiple choice, and more
- Dr. Mitchel Cottenoir, is the university contact for Gradescope during the pilot. Please contact him at mcotteno@uncc.edu if you have questions not answered in the FAQs or the user guides.

There are multiple Gradescope Guides that can provide great resources while learning and using Gradescope.
