

# How do I add the Zoom link in my Canvas course?

Show Me

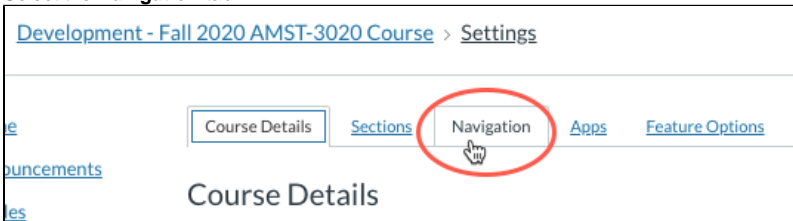

Tell Me

The Canvas-Zoom integration allows instructors to schedule online meetings from within Canvas. You must enable the Zoom link in the course navigation before students can access scheduled meetings

1. In your course, click the **Settings** link

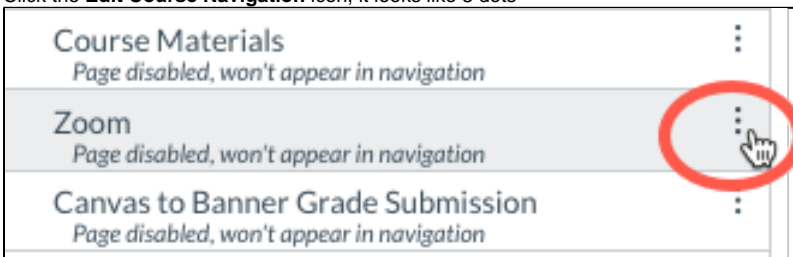

2. Select the **Navigation** tab

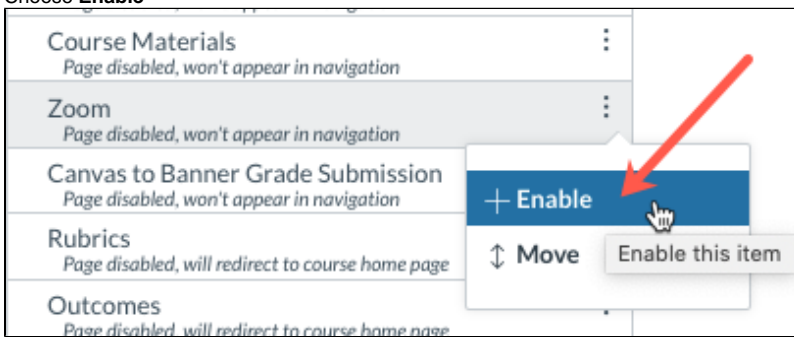

3. In the lower list of options, find **Zoom**

4. Click the **Edit Course Navigation** icon, it looks like 3 dots

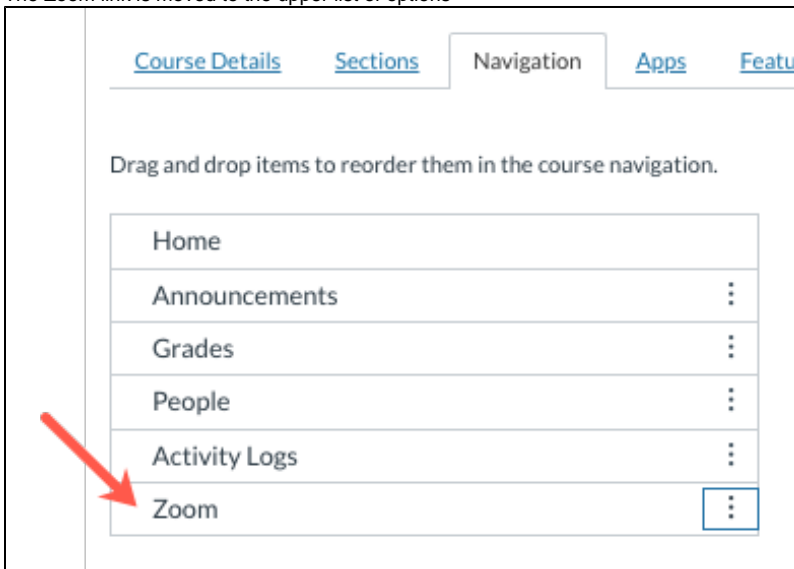

5. Choose **Enable**

A screenshot of a course navigation menu. The menu items are: Course Materials (Page disabled, won't appear in navigation), Zoom (Page disabled, won't appear in navigation), Canvas to Banner Grade Submission (Page disabled, won't appear in navigation), Rubrics (Page disabled, will redirect to course home page), and Outcomes (Page disabled, will redirect to course home page). A context menu is open over the Zoom link, showing options: + Enable, Move, and Enable this item. A red arrow points to the '+ Enable' option.

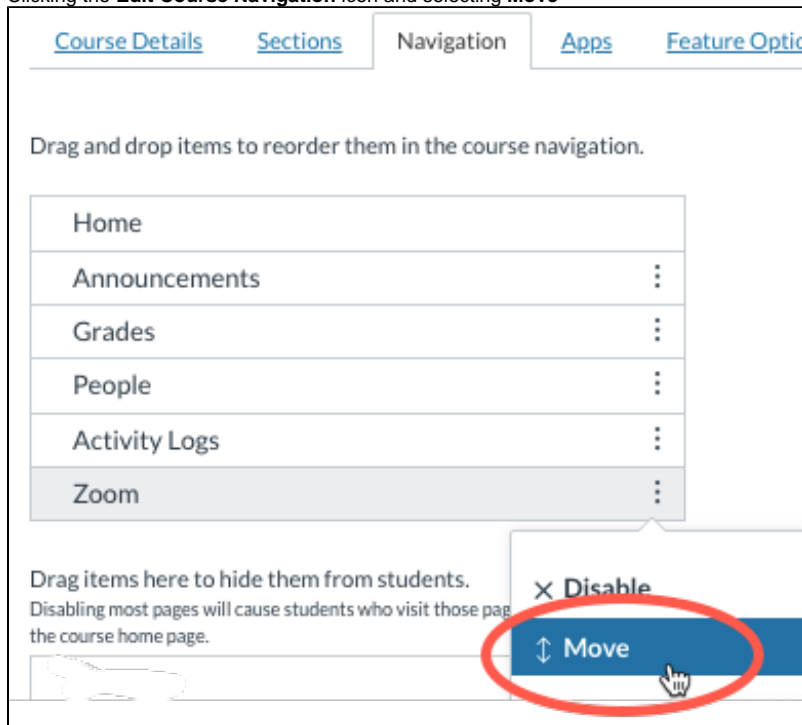

6. The Zoom link is moved to the upper list of options

A screenshot of the course navigation page. The tabs are: Course Details, Sections, Navigation, Apps, and Features. Below the tabs, it says "Drag and drop items to reorder them in the course navigation." The list of items is: Home, Announcements, Grades, People, Activity Logs, and Zoom. A red arrow points to the Zoom link, which is now at the top of the list.

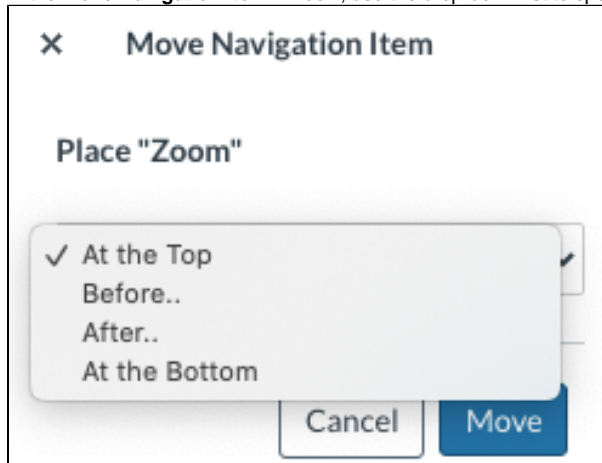

7. You can move the Zoom link by either

- a. Dragging the Zoom option to a new position, OR
- b. Clicking the **Edit Course Navigation** icon and selecting **Move**

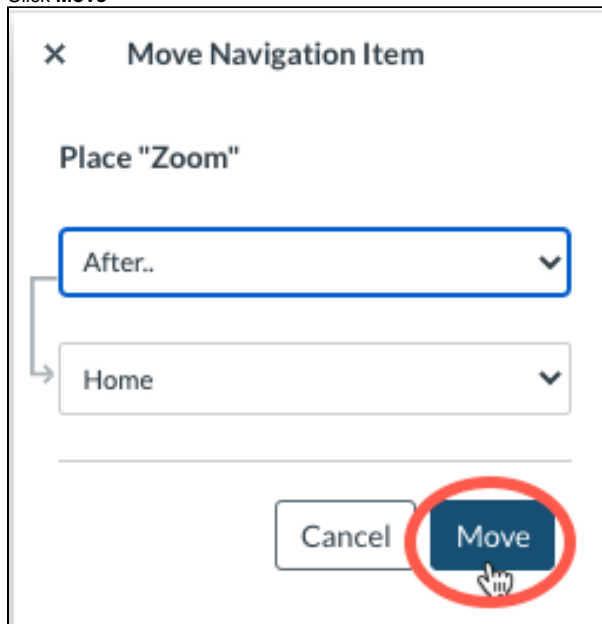

A screenshot of the course navigation page. The tabs are: Course Details, Sections, Navigation, Apps, and Feature Options. Below the tabs, it says "Drag and drop items to reorder them in the course navigation." The list of items is: Home, Announcements, Grades, People, Activity Logs, and Zoom. Below the list, it says "Drag items here to hide them from students. Disabling most pages will cause students who visit those pages to see the course home page." A context menu is open over the Zoom link, showing options: X Disable and Move. The 'Move' option is circled in red.

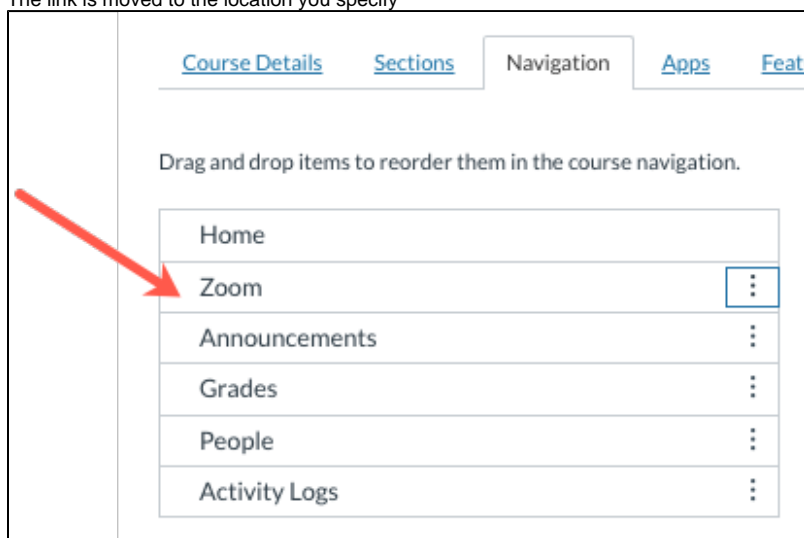

i. In the **Move Navigation Item** window, use the drop-down list to specify where the link should be located

ii. Click **Move**

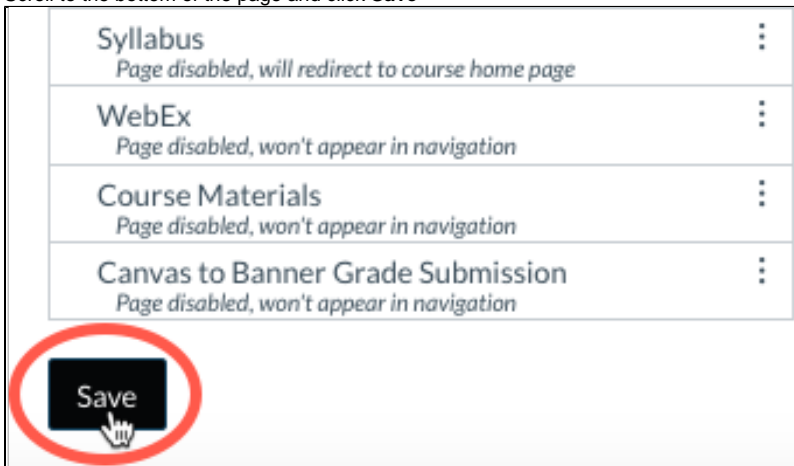

iii. The link is moved to the location you specify

#### More Information

For more information on moving items, refer to the [Canvas documentation](#)

1. Scroll to the bottom of the page and click **Save**
