

Grants & Contracts Administration

Grants and Contract Administration (GCA) provides transactional support to college-based post-award staff and is responsible for overall sponsored program financial reporting and compliance. Award Management staff assist with tasks including award set-up and Banner budget entry, cost share, release time, and award close-out. The Contracts Unit negotiates and executes all contracts funded by sponsored funds. The Office of Cost Analysis deals with recharge units, effort reporting and fringe benefit and F&A proposals.

Grants and Contracts Administration is committed to providing the UNC Charlotte research community with the services required to fulfill their research administration needs at an optimum level. Please feel free to contact [Valerie Crickard](#) (704-687-1862) if you should have any questions.
