What is InfoAssist and how do I access it?

Tell Me

1. InfoAssist is a visual feature that enables quick access to a reporting infrastructure.
2. It can help users manipulate data or quickly access a simple query, even if they don't have coding experience.
3. Using a notepad to write subsequent code allows users to execute precise commands and may provide more flexibility to the user (if that is where their comfort lies).
4. How to access InfoAssist:
   a. Right click on the folder from BI Portal domain's tree
   b. Click new
   c. Click report
