Tell Me

1. If you have a U2F configured fob as a Duo device, you will see the following message after entering your NinerNET username and password when you attempt to login through the university’s single sign on:

   Windows Security

   Making sure it's you

   Please sign in to https://api-c9cc3e0e.duosecurity.com.

   This request comes from Chrome, published by Google LLC.

   Insert your security key into the USB port.

   Cancel

2. To authenticate:
   a. **Using your fob:** insert your fob into a USB port and pinch the activation button

   ![Warning](https://example.com/warning.png)

   You will not be able to select the “Remember me for 30 days” option when using the fob.

   b. **Using another Duo device:** click Cancel and select the alternate device from the Duo device dropdown menu
