How can I view information for all the courses in my program in DegreeWorks?

Tell Me

Where a course requirement is listed, clicking the requirement will display a pop-up window with the course information (including course title, description, credit hours, pre-requisites, etc).

Course Prerequisite

A clipboard icon, displayed next to a course indicates there is a prerequisite. This icon will appear whether or not you have the prerequisite course on your record.

Course Title

If you hover the mouse over the course information, the course title and course credit hours will be displayed.

Course Information

If you click on a course, you will see additional information such as title, course description and any prerequisites.

The undergraduate and graduate catalogs can also be viewed online.
