How much bandwidth do I need for web conferencing?

Tell Me

1. The bandwidth (and hardware) requirements vary for each vendor. Here are the general recommendations
   a. Google Meet
   b. Zoom
2. For Zoom and Google Meet, we could suggest speedtest.net to test internet speed.
3. If you experience problems:
   a. use audio only, not video
   b. close as many applications as possible
